FF6714 5W-30

Innovative premium fully synthetic engine oil for modern HYUNDAI and KIA gasoline and diesel engines with and without a turbocharger. Designed in accordance with the requirements of Korean automakers specifically for engines with a variable valve timing system CVVT from HYUNDAI starting with 2L Beta I4 engine models (Hyundai Elantra and Kia Spectra from >2005), Alpha II DOHC (Hyundai Accent / Verna, Tiburon, Kia Ceed >2006).

Product properties:

- Ester components provide excellent anti-wear and anti-friction properties due to the exceptional durability of the oil film, which, combined with excellent pumpability, significantly increases the engines service life even in heavy driving conditions;
- Offers high fuel efficiency due to reduced viscosity and optimal anti-friction properties;
- Highly effective additive package and synthetic base ensure confident cold start in any conditions, which significantly reduces startup wear;
- Excellent washing and dispersing properties and the highest thermal-oxidative stability effectively fight against all types of deposits and keep engine parts and turbochargers clean;
- A special synthetic base provides long-term trouble-free operation of the continuous variable valve timing system CVVT;
- Suits engines with extended oil change intervals (Long Life) and conventional engines;
- Offers great compatibility with sealing materials.

Designed for gasoline and diesel engines of cars, light SUVs, vans and light trucks (primarily HYUNDAI and KIA), where the performance level of API SN is required.
